

HELITECH

Providing 24/7 support to operators worldwide.

FEATURE ARTICLE: HELITECH'S NEW WEBSITE

"OUR WEBSITE OFFERS A USER FRIENDLY POINT OF ACCESS TO INFORMATION ON OUR RANGE OF SERVICES, AND INTERACTIVE OPTIONS TO HELP US MEET YOUR NEEDS"

COREY STEINBERG
MARKETING MANAGER

We now have the ability to display all our brochures for you to view in PDF format within the comfort of your home or office. The 'Brochures' page will enable us to effectively communicate all our current and upcoming projects to our clients, eliminating the need for snail mail.

WEBSITE PROJECTS COMING SOON!

Over the next few months we will be implementing more new and exciting features including a secure client section, online parts requests, interactive presentations and much much more so check our website often for the latest news.

We are pleased to announce after many months of design work our new website is up and ready for viewing! Some of you may have noticed some subtle changes from our old website including a vastly redesigned layout which will enable current and potential clients to navigate throughout our website without getting lost or confused. We have also added a new colour

scheme to our website! Most of our customers will remember Helitech as having a mostly Brown and Green theme but we have overhauled our look to a sleeker Black, and Red theme which will make navigating the site a pleasure.

WEBSITE BROCHURES

One section of the website we are very excited about is our 'Brochures' page!

IN THIS ISSUE:

PAGE ONE: Helitech's newly revamped website offering you the latest news and capabilities.

PAGE TWO: Helitech wins Panama National Air Services bid for the overhaul of five B212 Aircraft.

PAGE THREE: Along with our new website, Helitech is now offering clients multiple newsletters.

PAGE FOUR: Meet some of the employees at Helitech.

E-NEWSLET HELITECH

"OUR EXPANSION WAS NECESSARY TO ACCOMMODATE THE GROWING DEMAND OF THE SIKORSKY AND BELL FLEET!"

*Greg Bartlett
VP/Business Development*

HELITECH EXPANSION COMPLETED!

After months of hard work, and dedication from our staff we have finally completed the expansion of our facility at 1640 Threshold Drive! The overall working space before the expansion was 12,000 square feet but we have now increased that space to 27,000 square feet.

Our new expansion allows us to make provisions for the increased demand for Bell Helicopters, S76, and the UH-60 Blackhawk lines.

The total aircraft capacity for the new space allows us to fit the following aircraft in our hangar with room to spare:

- 2 x S76 helicopters
- 2 x Medium Bell helicopters
- 1 x Jet Ranger helicopter
- 2 x 214ST helicopters
- 2 x UH-60 Blackhawk helicopters

PANAMA MILITARY: ON THE RISE

THREE B212'S AWAIT COMPLETE OVERHAULS AFTER THEIR LONG JOURNEY FROM PANAMA.

Helitech is pleased to be awarded the contract for the Panama National Air Services! The contract, worth 11 million dollars will see Helitech overhauling a total of five B212/ UH-1N aircraft using our Service Life Extension Program (SLEP) over a two year period.

SERVICE LIFE EXTENSION PROGRAM (SLEP)

The evaluation of the Panama Air Services fleet allowed us to recommend our Service Life Extension Program (SLEP) for all five Bell 212's at our facility. The SLEP program involves a full refurbishment of the airframe and driveline systems i.e. fuel, hydraulic, engines, etc.

Along with the refurbishment, the entire airframe will be fully modernized with the latest avionics and components including a new Sagem EFIS glass cockpit system and new electrical harnesses.

LIFE EXTENSION

Through our Service Life Extension Program, Panama National Air Services will get an additional 15-20 year life extension out of their aircraft without the need for heavy airframe depot maintenance. Once the program is complete, Panama National Air Services will be operating an updated dynamic and reliable as well as economical helicopter fleet.

For more detailed information regarding our Service Life Extension Program (SLEP) please contact Greg Bartlett at 604-557-9690 or by email at gregb@helitechss.com.

DIRECTOR OF MAINTENANCE - KELLY LOEWEN

Helitech Support would like to welcome our NEW Director of Maintenance, Kelly Loewen! Kelly has worked as an A.M.E. and Final Inspector in component overhaul for over 15 years. His dedication to looking after his staff and his clients, coupled with lean stream initiatives will continue to make Helitech a world leader in Repair and Overhaul.

ETTER ITECH

OPTIONS: WHICH NEWSLETTER?

WITH THE REDESIGN OF OUR WEBSITE WE NOW OFFER OUR CURRENT AND POTENTIAL CUSTOMERS THE ABILITY TO CHOOSE WHICH NEWSLETTER YOU WOULD LIKE TO HAVE SENT TO YOU!

One of our newest ideas to help current and potential clients choose the information you would like to receive, is the advent of a multi edition newsletter. Now we have the ability to publish multiple newsletters tailored to your specific needs!

We've also included a General Newsletter for anyone wanting current company information about Helitech Ferndale and Helitech Abbotsford which is what you are reading now.

Please visit our website and signup now!

By visiting our website at www.helitechss.com and clicking on the Newsletter Logo (shown right) you will be offered the option of one or more of the following Newsletters: Bell 204, Bell 206, Bell 212, Bell 214, S61, and S76 Newsletter editions.

STRUCTURES AND AVIONICS REWIRE ON AGRARFLUG BELL 212 AIRCRAFT

One of the many aircraft that are in our hangar this month is Agrarflug's B212! Helitech is proud to be working on this aircraft which was shipped from Germany requiring a full Avionics re-wire. Completion of Agrarflug's aircraft will be late October early November.

BLACKHAWK IN HOUSE

MILITARY FINDS NEW HOME FOR BLACKHAWKS

With the expansion of Helitech's main hangar and our capabilities list continuing to grow, Helitech is becoming the first choice for Blackhawk MRO for several companies. Whether it's an avionics rewire or full structural repair, Helitech has the means and the skill to do it right!

Check out our next edition where we will go in depth on our Blackhawk capabilities and prove to you why Helitech should be your first choice for Blackhawk MRO.

NEED HELP: EMPLOYEE SEARCH

Warren Malmberg President

As the founder of Helitech, Warren sought to create and develop a niche market in the 214B series helicopters. His determination and focus have been the foundation of the success for Helitech. In building the company, Warren attracted like-minded experts with a similar vision. This has fueled the company's rapid growth and is key to the very high support and services now provided.

Greg Bartlett VP / Business Development Officer

Greg joined Helitech in 2001 with one goal in mind: to focus the business on sustainable growth in new and untapped markets. With 20 years of experience in the repair and overhaul business, Greg has helped to propel the company forward by developing its services and working in partnership with large fleet operators.

Mike Clarke Operations Manager

Mike started in 1997 and has been an integral part of the senior management team. He has backgrounds and licenses in Aircraft Maintenance Engineering, components, hydraulics & engine overhaul. Mike developed Helitech's Bell 214B & 214ST product lines from ground up and has acted as Director of Maintenance and Production Manager since 2004.

Corey Steinberg Marketing Manager

Corey started with Helitech in early 2008 and brings with him over 15 years of R&O experience in the Hydraulic and Marketing sectors! Corey's main focus at Helitech is to develop and expand the existing Hydraulics capabilities while focusing on marketing the company as a whole through tradeshow, newsletter's, and online & print advertising.

NEXT ISSUE:

We go in depth on our Blackhawk and Bell212 capabilities. We look into the tradeshow future to find out where you can meet some of the key employees of Helitech, and we'll go on a tour of one of the biggest paint booths this side of the border! Also, we'll take you on a tour of our Ferndale Washington base.
